

Manual de instalación de Code::Blocks para Windows

Accede al sitio: <http://www.codeblocks.org/downloads>

The screenshot shows the Code::Blocks website's download page. The browser's address bar displays 'www.codeblocks.org/downloads'. The website header features the Code::Blocks logo and the tagline 'Code::Blocks - The IDE with all the features you need, having a consistent look, feel and operation across platforms.' A navigation menu includes links for Home, Features, Downloads, Forums, and Wiki. The 'Downloads' section is active, showing three methods: downloading a binary release, downloading a nightly build, and downloading the source code. A sidebar on the left provides a 'Main' menu with links to Home, Features, Screenshots, Downloads (with sub-links for Binaries, Source, and SVN), Plugins, User manual, Licensing, and Donations. Below this is a 'Quick links' section with links to FAQ, Wiki, Forums (mobile), Nightlies, Ticket System, Browse SVN, and Browse SVN log. A GPL logo is visible at the bottom left of the page content.

Downloads

There are different ways to download and install Code::Blocks on your computer:

- **Download the binary release**

This is the easy way for installing Code::Blocks. Download the setup file, run it on your computer and Code::Blocks will be installed, ready for you to work with it. Can't get any easier than that!
- **Download a nightly build:** There are also more recent so-called *nightly builds* available in the **forums** or (for Debian and Fedora users) in **Jens' Debian repository** and **Jens' Fedora repository**. Other distributions usually follow provided by the community (Big "Thank you" for that!) Please note that we consider nightly builds to be *stable*, usually, unless stated otherwise.
- **Download the source code**

If you feel comfortable building applications from source, then this is the recommend way to download Code::Blocks. Downloading the source code and building it yourself puts you in great control and also makes it easier for you to update to newer versions or, even better, create patches for bugs you may find and contributing them back to the community so everyone benefits.
- **Retrieve source code from SVN**

This option is the most flexible of all but requires a little bit more work to setup. It gives you that much more flexibility though because you get access to any bug-fixing we do at the time we do it. No need to wait for the next stable release to benefit from bug-fixes!

Besides Code::Blocks itself, you can compile extra plugins from contributors to extend its functionality.

Thank you for your interest in downloading Code::Blocks!

Da clic en la liga <Download the binary release>

The screenshot shows the Code::Blocks website. The browser address bar displays "www.codeblocks.org/downloads". The website header includes the Code::Blocks logo and the tagline "Code::Blocks - The IDE with all the features you need, having a consistent look, feel and operation across platforms." The navigation menu has links for Home, Features, Downloads, Forums, and Wiki. The "Downloads" section is active, showing a list of download options. The first option, "Download the binary release", is highlighted with a red box and a red arrow pointing to it from the text "Da clic en la liga <Download the binary release>". Below this, there are sections for "Download a nightly build" and "Download the source code". The "Quick links" sidebar on the left includes links to Home, Features, Screenshots, Downloads, Plugins, User manual, Licensing, and Donations. The footer of the website shows the URL "www.codeblocks.org/downloads/26".

Please select a setup package depending on your platform:

- **Windows XP / Vista / 7 / 8.x / 10**
- Linux 32 and 64-bit
- Mac OS X

NOTE: For older OS'es use older releases. There are releases for many OS version and platforms on the **Sourceforge.net** page.

NOTE: There are also more recent *nightly builds* available in the **forums** or (for Debian and Fedora users) in **Jens' Debian repository** and **Jens' Fedora repository**. Please note that we consider nightly builds to be *stable*, usually.

NOTE: We have a **Changelog** for **17.12**, that gives you an overview over the enhancements and fixes we have put in the new release.

Selecciona la opción señalada, da clic en la liga **Sourceforge.net**

 **Windows XP / Vista / 7 / 8.x / 10:**

File	Date	Download from
codeblocks-17.12-setup.exe	30 Dec 2017	FossHUB or Sourceforge.net
codeblocks-17.12-setup-nonadmin.exe	30 Dec 2017	FossHUB or Sourceforge.net
codeblocks-17.12-nosetup.zip	30 Dec 2017	FossHUB or Sourceforge.net
codeblocks-17.12mingw-setup.exe	30 Dec 2017	FossHUB or Sourceforge.net
codeblocks-17.12mingw-nosetup.zip	30 Dec 2017	FossHUB or Sourceforge.net
codeblocks-17.12mingw_fortran-setup.exe	30 Dec 2017	FossHUB or Sourceforge.net

NOTE: The codeblocks-17.12-setup.exe file includes Code::Blocks with all plugins. The codeblocks-17.12-setup-nonadmin.exe file is provided for convenience to users that do not have administrator rights on their machine(s).

NOTE: The codeblocks-17.12mingw-setup.exe file includes *additionally* the GCC/G++ compiler and GDB debugger from **TDM-GCC** (version 5.1.0, 32 bit, SJLJ). The codeblocks-17.12mingw_fortran-setup.exe file includes *additionally to that* the GFortran compiler (**TDM-GCC**).

NOTE: The codeblocks-17.12(mingw)-nosetup.zip files are provided for convenience to users that are allergic against installers. However, it will not allow to select plugins / features to install (it includes everything) and not create any menu shortcuts. For the "installation" you are on your own.

If unsure, please use codeblocks-17.12mingw-setup.exe!

Se realiza el proceso de descarga.

codeblocks-17.12....exe
6.8/86.2 MB, Faltan 34 s.

Ubica el *folder* donde se ha descargado el archivo instalador.

*Nota: comúnmente, si no se especifica una ruta diferente, los archivos se bajan en la carpeta “Descargas”.

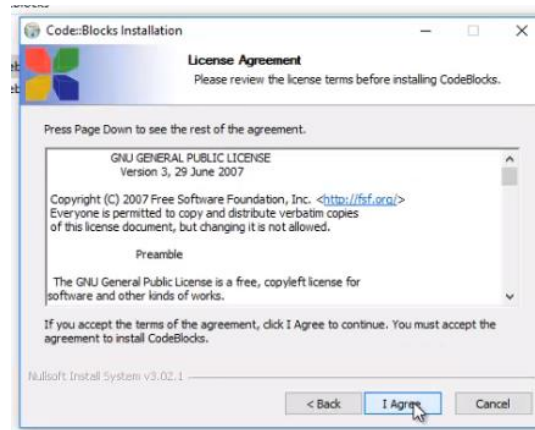

Da doble clic en el ícono del archivo instalador **codeblocks-17...** para iniciar el proceso de instalación en tu computadora.

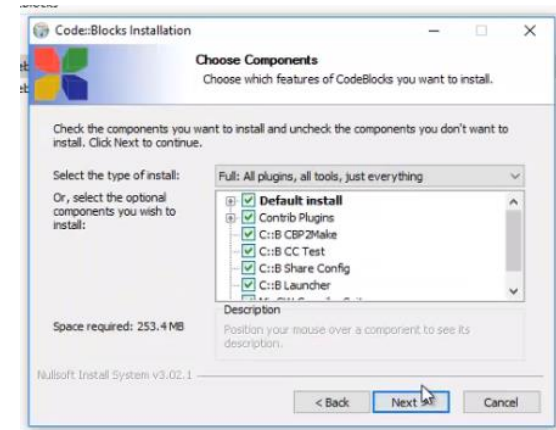

Atiende las instrucciones del instalador.

Inicia la instalación, clic en el botón **<Next>**.

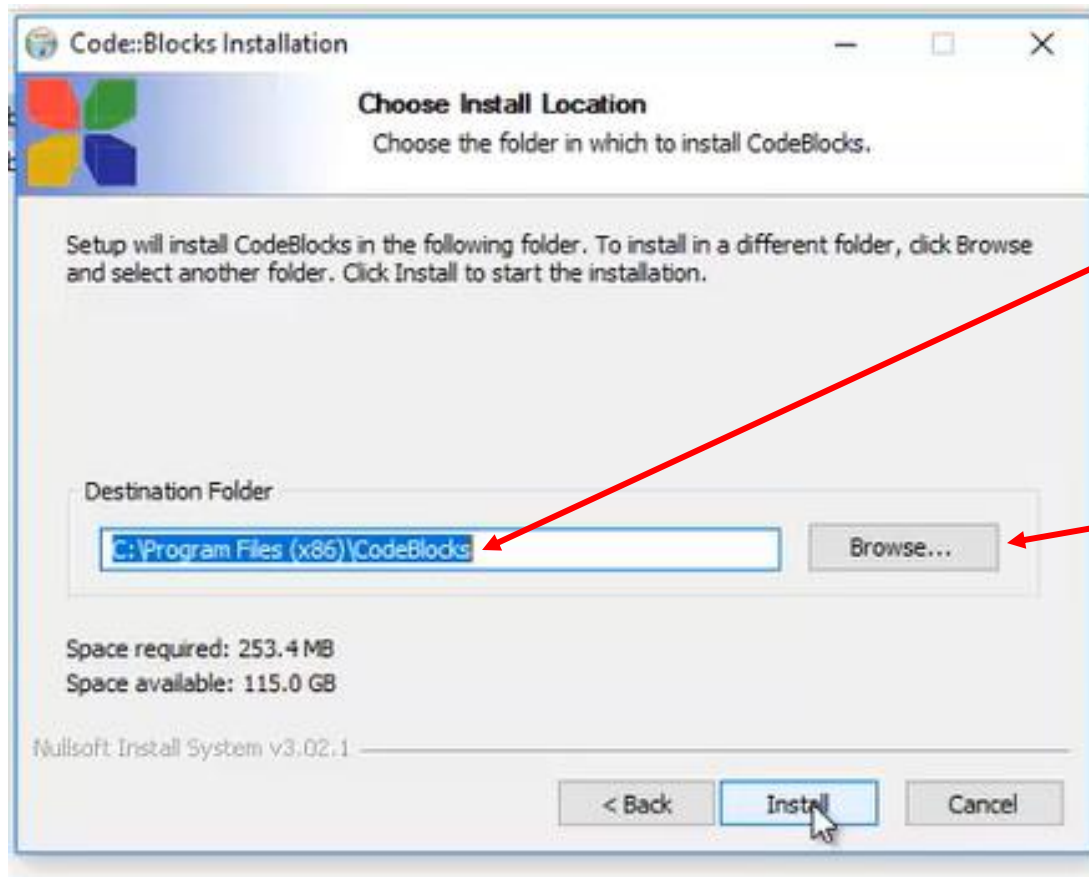

Lee y acepta los términos, clic en **<I Agree>**.

Deja marcadas todas las casillas y da clic en el botón **<Next>**.

Son todos los *plugins* y herramientas que van a instalarse.

Selecciona la ruta de instalación.

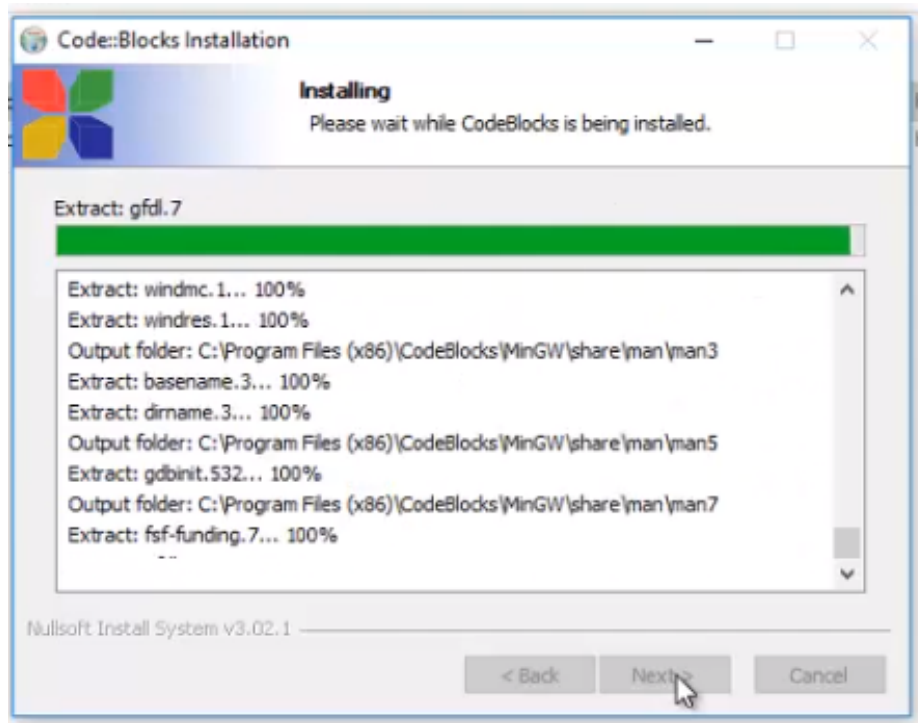

Puedes dejar la ruta de instalación que la herramienta señala por omisión.

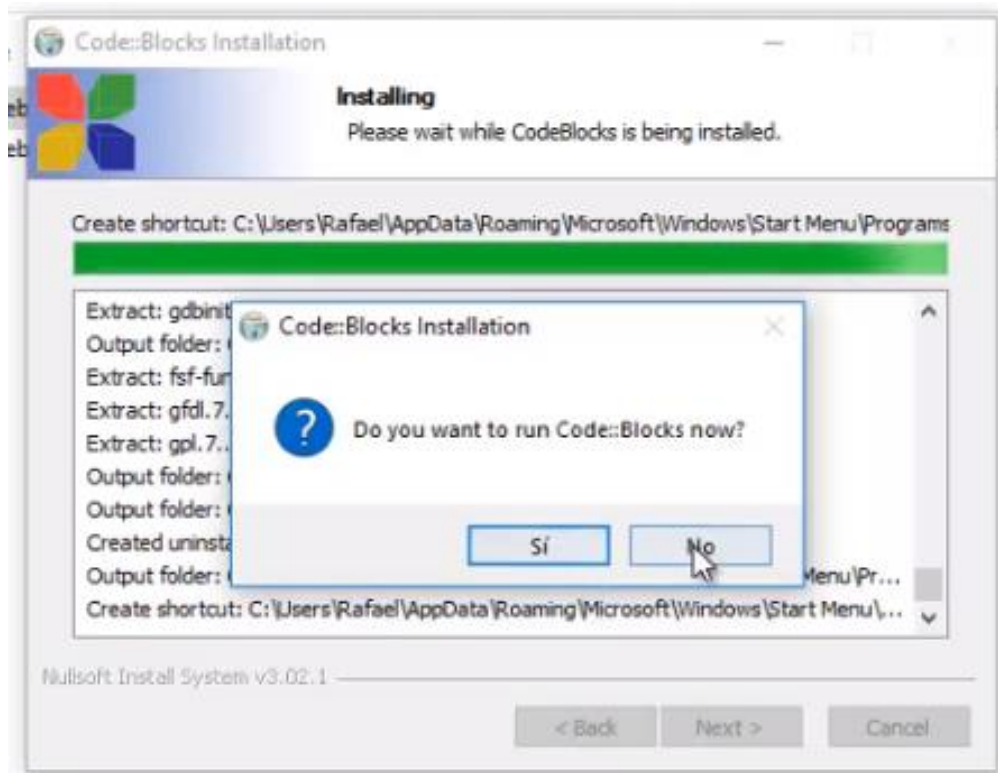

De lo contrario, si deseas cambiar la ruta para que Code::Blocks se instale en otra carpeta, utiliza el botón <Browse>... para buscar y seleccionar otra ruta.

Decidida la ruta de instalación, da clic en <Install> para que inicie el proceso.

Se lleva a cabo el proceso de extracción de los archivos que componen el ambiente de desarrollo.

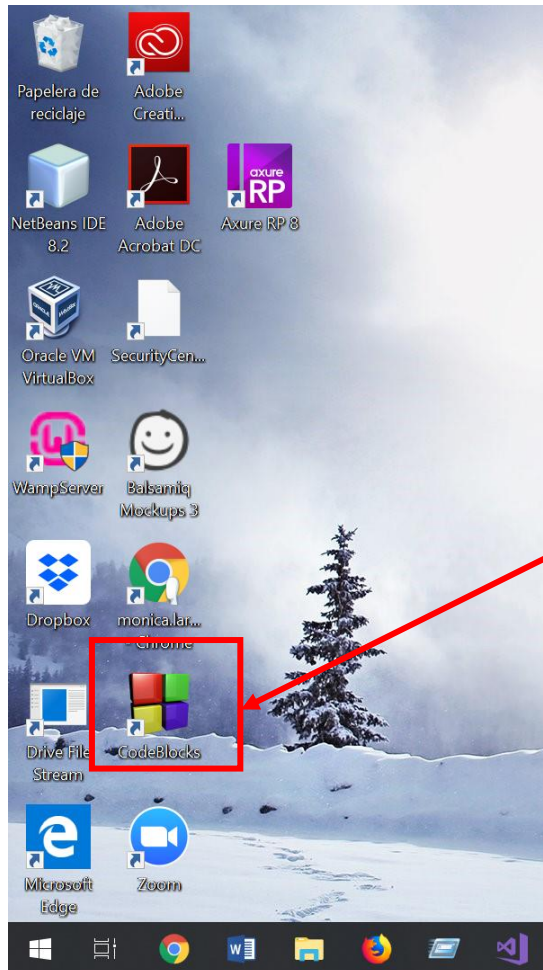

Para terminar, cuando el menú pregunta si se desea ejecutar Code::Block ahora, da clic en **<No>**.

Da clic en el botón **<Finish>** para terminar la instalación y salir.

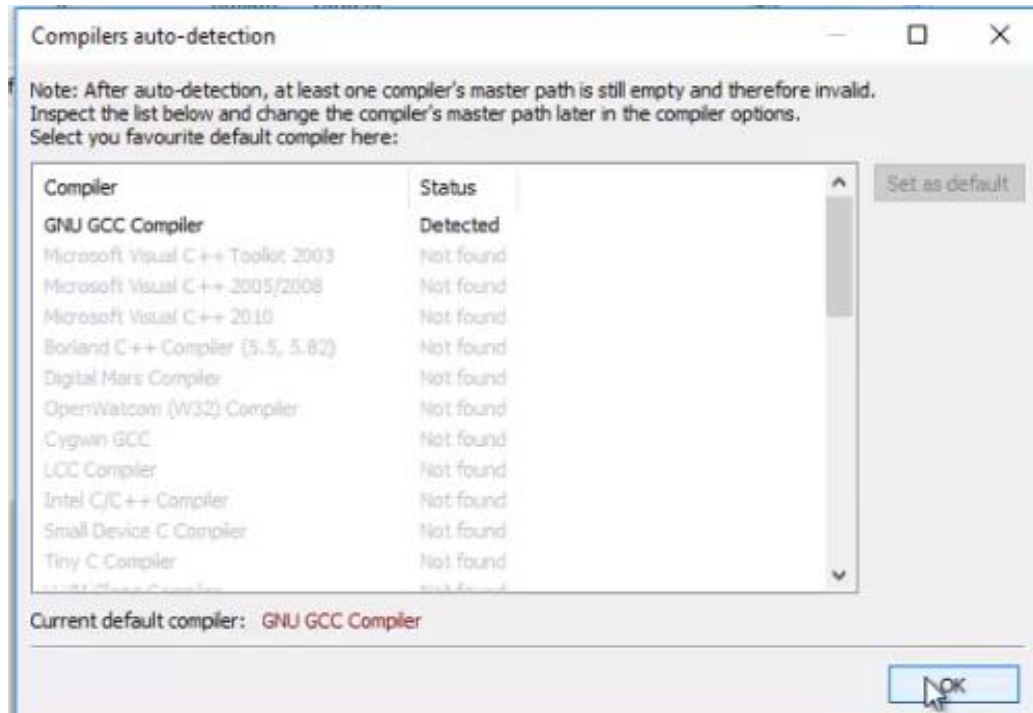

Identifica el ícono de Code::Block y da doble clic para realizar algunos pasos de configuración.

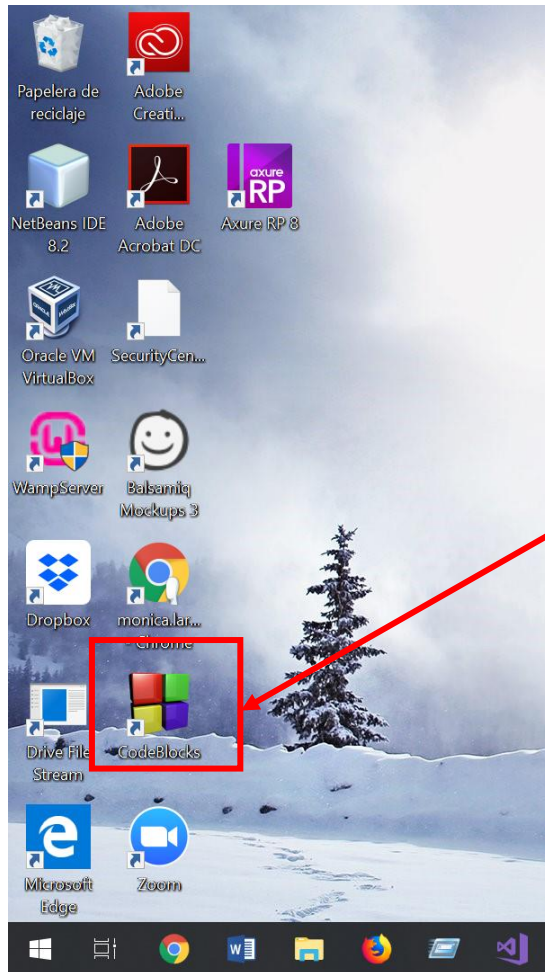

Normalmente, durante la instalación se genera un ícono en el escritorio.

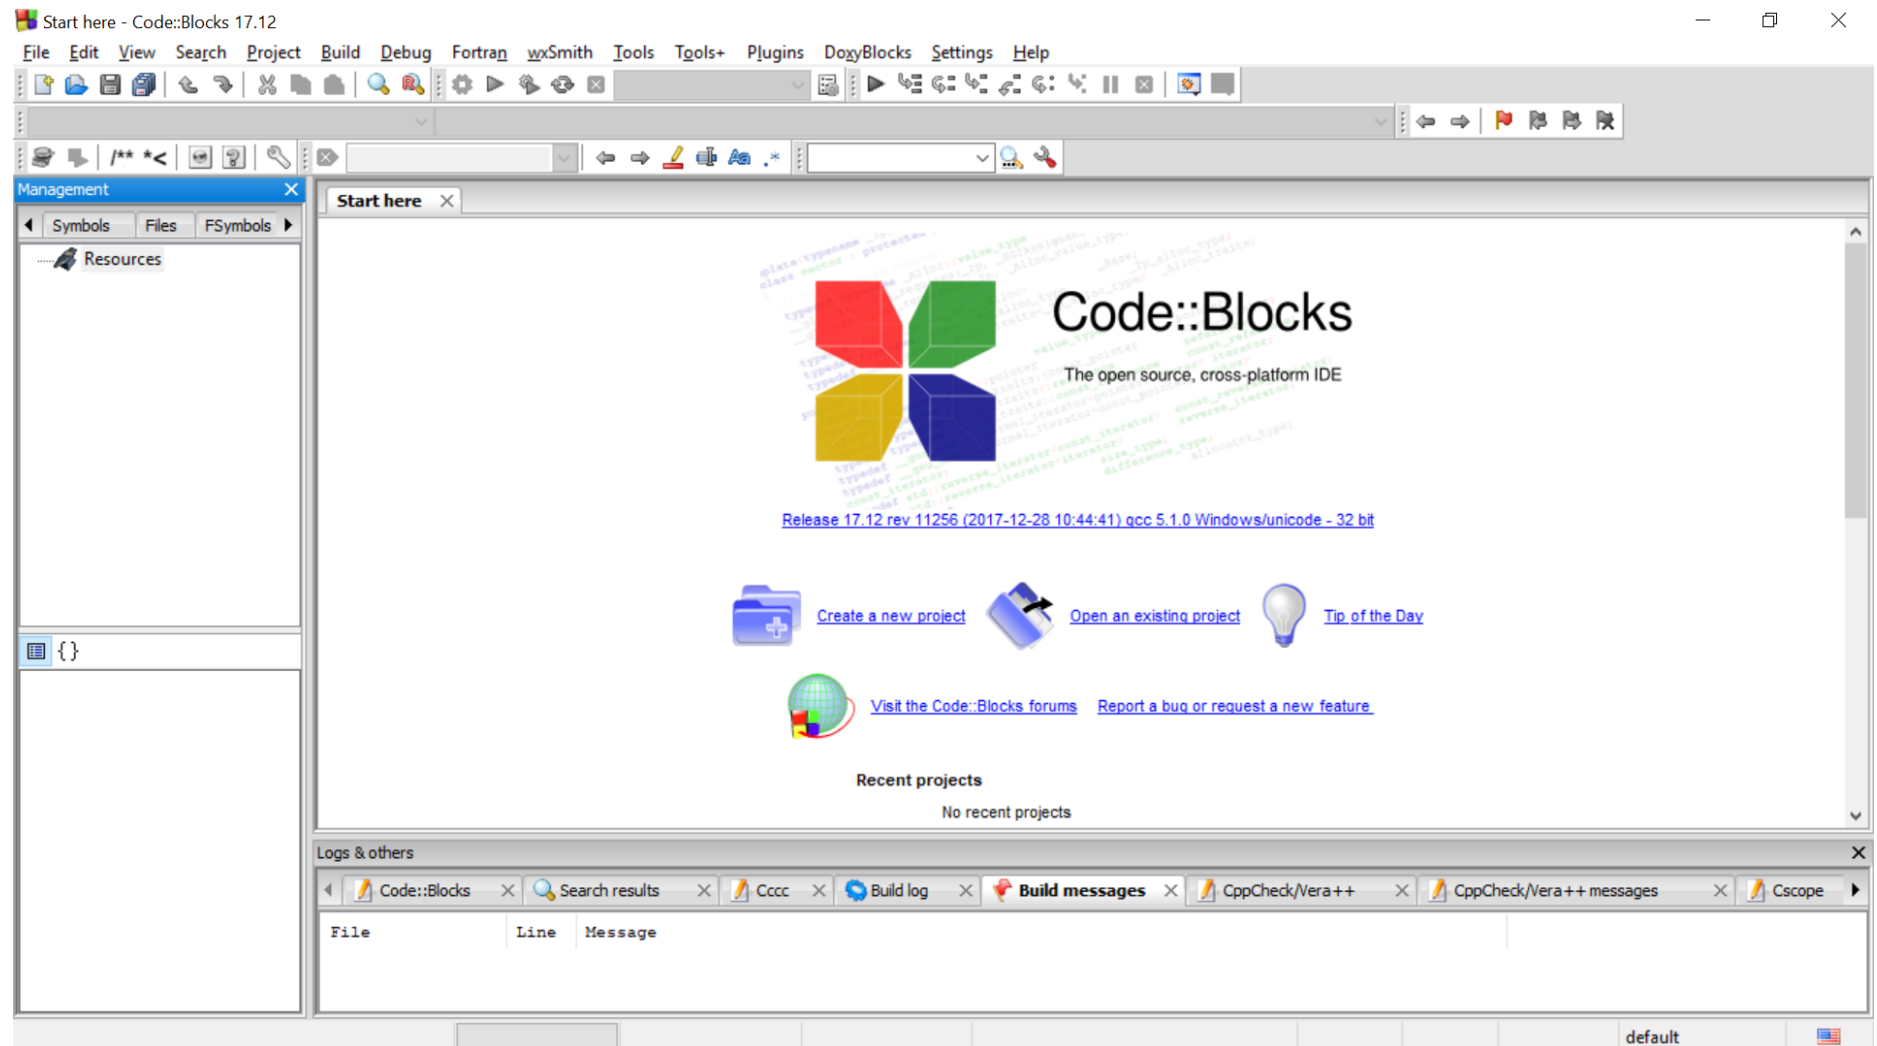

La herramienta indica el compilador que va a utilizarse, no hagas cambios y da clic en el botón <OK>, el proceso de instalación ha terminado.

Doble clic en el ícono de Code::Block y...

El entorno Code::Blocks.
